

2020 TRAINING OPPORTUNITY

Water Systems School

April 21 - 23

Water Systems School is a basic to intermediate level training course focused on pumps that are 5HP or smaller and will provide participants with basic instruction on how a pump operates. This interactive training includes hands-on exercises centered around different pump types and motors. Participants will learn how to properly size a basic residential water and irrigation system. This training also reviews the benefits of a Variable Frequency Drive (VFD) and explores how to install, troubleshoot, and maintain a VFD.

Target Audience: Pump professionals who are new to or moderately experienced with residential water or irrigation systems.

When:
April 21 - 23

Where:
Pentair Delavan, Wisconsin.

Cost: \$225.00*. This fee will cover: Training | Training Handbooks | 3 Lunches | 2 Dinners | Daily Snacks

*NOTE: Participants are responsible for booking their air and ground transportation, booking and covering all lodging expenses and covering meals outside of those listed above. Upon registration, you will be provided with further details about the seminar, to include travel recommendations.

Class size is limited, so enroll today to secure your seat!
