ETi\textsuperscript{(R)} 400
HIGH-EFFICIENCY HEATER

MORE OUTPUT, LESS INPUT
When you want quality, strength, and durability, you want the corrosion resistance of titanium. Pentair's ETi400 is the world's first heater equipped with the exclusive TitanTough\textsuperscript{™} direct-fire titanium heat exchanger for long-lasting performance with exceptional thermal-efficiency, even in the most challenging operating conditions. Not only is it ultra-quiet to operate and easy to install both indoors and out, the ETi400 has the highest efficiency in its class and offers the longest lasting heat exchanger ever built, with ASME certified construction and a 3-year warranty.

PRODUCT FEATURES

Efficient
- 96% Thermal Efficiency - highest in its class
- High efficiency equals large energy savings over standard heaters and faster heat-up times

Durable
- Corrosion resistant with TitanTough\textsuperscript{™} Titanium heat exchanger
- No welds, crimps, or joints to reduce corrosion resistance.
- Titanium heat exchanger stands up to harsh water chemistry and keep

Easy to vent
- PVC Venting: Category IV venting and air intake: up to 120’ with 4” PVC and up to 300’ with 6” PVC pipe
- PVC venting makes installing indoors more easier and more economical

Easy to Install, Easier to Service
- 180° rotating control panel for left or right plumbing connection
- Large removable panels make accessing the heater internals quick and easy
- 180° rotating gas valve for front and rear gas connections
- Parts commonality with MasterTemp heaters ensures part availability and familiarity
- 3-year parts and labor warranty
ETi(R) 400
HIGH-EFFICIENCY HEATER

TEMPERATURE RISE IN 12 HOURS (°F)

TIME TO RAISE WATER TEMPERATURE 30°F

AVERAGE ANNUAL COST SAVINGS

* All calculations are estimates. Actual results may vary due to a range of factors including, but not limited to: environmental conditions, pool type/construction/materials/configuration, geographical location, installation details and various operational parameters. Cost savings estimates are based on 65°F air temperature and 82°F water target temp for an uncovered pool operating 180 days under moderate wind conditions and the cost of natural gas is $1.22 per 100,000 BTU and comparing energy use to a gas heater that is 82% efficient. For assistance with sizing and selecting a pool heating product, please consult a swimming pool professional.
