STEP 1
Exploded view of Hub Components.

STEP 2
Assemble Hub, as shown, and insert assembly into flange opening.

STEP 3
After assembly is inside the tank, rotate the assembly 90°. Hold the Hub assembly with one hand, as shown, and assemble laterals by inserting and twisting clockwise.

STEP 4
While holding Hub and lateral assembly No. 1, attach Hub assembly No. 2 with adaptor attached and go to (step 5).

STEP 5
Hold Hub assembly with one hand and attach laterals as described in (step 3). After all laterals are assembled, bond pipe to adaptor using universal primer and cement.
