

SYSTEM:2 MOD MEDIA™

PLM Series Aboveground Systems

Greatest capacity for least maintenance.

The System:2 Mod Media system from Sta-Rite® is the ultra-capacity filter ideally suited for aboveground pools. The Mod Media system handles dirt loads up to 15 times greater than sand filters of equivalent size. Balanced flow tank hydraulics direct water through each side of the filter module for uniform dirt loading. This prevents clogging and captures more dirt between cleanings to minimize maintenance time. You may go an entire season before you need to clean your PLM aboveground filter.

- You won't clean often, but it's easy when you do—just rinse in place with a garden hose.
- Quiet Totally Enclosed Fan-Cooled (TEFC) pump motor helps keep efficiency high and operating costs low.
- Compact design fits easily in tight installations.

SYSTEM:2 MOD MEDIA PLM
SERIES ABOVEGROUND SYSTEMS

The Mod Media System strips away particles as small as 20 microns (an average grain of beach sand is 100 to 2000 microns in diameter!).

SYSTEM:2 MOD MEDIA™ PLM SERIES ABOVEGROUND SYSTEMS

Spray-and-go simplicity.

The System:2 Mod Media System features a one-piece filter module that simply drops into the easily accessible tank. It's foolproof! When cleaning is necessary, just remove the lid (no tools are needed) and spray-rinse the module while it is still in place.* It only takes minutes to clean thoroughly and get back into service fast.

- **Convenience and versatility**

The Mod Media Systems' small diameter footprint is the perfect fit for new and retrofit installations. Interchangeable ports provide multiple plumbing options, and the modular filter tank permits quick changing of filter media. Contemporary styling and matte black finish appear attractive in any pool setting.

*Modules used in conjunction with certain pool/spa sanitizers may require soaking in special cleaning solutions.

FILTER KEY FEATURES

- **Top-mounted pressure gauge**
Information panels are positioned for easy reading
- **Split-tank design**
Permits rinse-in-place cleaning—super simple to achieve thorough cleaning fast
- **Posi-Ring Closure**
Easy to secure and lasts for years

PUMP KEY FEATURES

- **Proprietary Totally Enclosed Fan-Cooled (TEFC) Motor**
Enhanced design and balanced flow enable energy efficiency and reduce operating costs.
- **Large strainer basket with see-thru lid**
For easy inspection and cleaning.
- **Fiberglass-reinforced construction**
For strength, durability and reliability.
