Introducing a Smart, Automatic, Hassle-Free Water Quality Monitoring System.

Give your customers more confidence in their water quality. Through the Pentair Home App, the ChemCheck™ Water Quality Monitoring System allows pool owners to use their smart device to instantly check their pool water chemistry and monitor pH levels, sanitizer performance and temperature. Your customers will spend less time testing and more time resting.

KEY FEATURES

- **Allows pool owners to stay informed and stay one step ahead.**
  As your pool chemistry naturally fluctuates throughout the day, ChemCheck keeps an eye on your water temperature, pH and sanitizer levels to make sure water chemistry remains in balance—sending alerts directly to your smart device, before problems arise.

- **Provides peace of mind through a smart interface.**
  Identifies water quality issues before they become a problem.

- **A helping hand when you need it.**
  Gives pool owners the peace of mind they deserve, and complete confidence in their water quality.

CHEMCHECK™ WATER QUALITY MONITORING SYSTEM

A Gateway to Better Business

The ChemCheck Water Quality Monitoring System is another new Pentair product that invites your customers into the world of convenient smart device operation of their pool equipment, like all the other connected products in their lives.

Creates opportunities for more Pentair products

As an inexpensive, entry-level product, ChemCheck can help you introduce your customers to the many other connected Pentair devices you sell, including:

- IntelliChem® Water Chemistry Pool Controller
- IntellipH® pH Controller
- IntelliConnect® Pool Control and Monitoring System
- IntelliSync Control and Monitoring System

Peace of mind through a smart interface

The ChemCheck Water Quality Monitoring System works 24/7 through the user-friendly Pentair Home App, giving pool owners a completely intuitive and connected experience for their Pentair products.
