

ChemCheck™

Water Quality Monitoring System

Pool water testing win-win: Doing less, but knowing more.

ChemCheck constantly monitors pool water quality and sends pool water chemistry information directly to a smart device using the Pentair Home app.

ChemCheck sends alerts when pool water chemistry needs attention to avoid playing constant catch-up on pool chemical maintenance—so pool owners never have to worry their water isn't ready to enjoy.

- Continuously monitors pH, sanitizer performance and pool water temperature
- Sends alerts to a smart device when pool or spa water needs attention through the easy-to-use Pentair Home app
- Recommends ideal chemical dosage to keep the pool water balanced
- Keeps a record of all pool water chemistry information

ChemCheck™

Water Quality Monitoring System

ChemCheck stays one step ahead of pool water chemistry.

ChemCheck measures pool sanitizing potential using Oxidation Reduction Potential (ORP)
- analyzing more than just the amount of chemicals but also how well those chemicals are performing.
