

INTELLICENTER® LITE SYSTEM: FREQUENTLY ASKED QUESTIONS (FAQs)

Why are new SKUs being added for IntelliCenter?

[IntelliCenter Pool Control System](#) is the flagship automation system for Pentair and continues to make ongoing improvements. A lower-priced entry point is now available to meet market needs, and new SKUs are available.

What are the new SKUs, and how are they different from IntelliCenter?

The new [IntelliCenter Lite System](#) SKUs include a power center rather than a load center with a 125AMP breaker bus. Two IntelliCenter Lite SKUs exclude a high-power wireless kit used to connect to the pool owner's router wirelessly. With these two options, remote access can be provided with a hard-wired cat-5 Ethernet connection from the customer's main network router directly into the back of the IntelliCenter main board. The new SKUs are used when a load center and breaker panel are not needed or a wireless connection to the pool owner's router is not required.

IntelliCenter Lite bundles do not include water chemistry solutions currently. You can order an IntelliChlor® Salt Chlorine Generator and other water chemistry products separately.

What are the new SKUs for the IntelliCenter Lite system?

The new SKUs for the IntelliCenter system are as follows:

PART NUMBER	DESCRIPTION
523623	IntelliCenter® Lite System (Power Center with i5P Personality Kit)
523624	IntelliCenter® Lite System (Power Center with i5PS Personality Kit and two standard valve actuators)
523625	IntelliCenter® Lite System (Power Center with i5PS Personality Kit and two IntelliValve® Actuators)
523668	IntelliCenter® Lite System (Power Center power center with i5P Personality Kit) without High Power Wireless Link
523669	IntelliCenter® Lite System (Power Center power center with i5PS Personality Kit) without High Power Wireless Link

Are there any differences in functionality between the IntelliCenter Pool Control System and the IntelliCenter Lite System?

The IntelliCenter Lite system has the same functionality as the IntelliCenter Pool Control System.

Is the IntelliCenter Lite expandable, and how do these SKUs align with EasyTouch® Lite?

The IntelliCenter Lite system is an expandable automation system with the same functionality as an IntelliCenter system. It has significantly more capability than the EasyTouch® Lite system. However, the following table provides the closest equivalents to the EasyTouch Lite system:

PART NUMBER	APPLICATION	EASYTOUCH LITE MAPPING
523623	5 Relay, Pool Only System, No Breaker Panel	522353 - EASYTOUCH PL4 CONTROL SYSTEM W/SL (with ScreenLogic®) Note: IntelliCenter Lite includes one additional relay and IntelliCenter features
523624	5 Relay, Pool & Spa System with Compool® Actuators, No Breaker Panel	522355 - EASYTOUCH PSL4 CONTROL SYSTEM W/SL (with ScreenLogic and two valve actuators) Note: IntelliCenter Lite includes one additional relay and IntelliCenter features
523625	5 Relay, Pool & Spa System with IntelliValve Actuators, No Breaker Panel	NA
523668	5 Relay, Pool Only System, No Breaker Panel, No Wireless Link (remote access via Ethernet)	522352 - EASYTOUCH PL4 CONTROL SYSTEM Note: IntelliCenter Lite includes one additional relay, IntelliCenter features and remote access via Ethernet
523669	5 Relay, Pool & Spa System, No Breaker Panel, No Wireless Link (remote access via Ethernet)	522354 - EASYTOUCH PSL4 CONTROL SYSTEM Note: IntelliCenter Lite includes one additional relay, IntelliCenter features and remote access via Ethernet

When will the new SKUs be available?

The IntelliCenter Lite system SKUs availability is as follows:

PART NUMBER	DESCRIPTION	AVAILABILITY
523623	IntelliCenter® Lite System (Power Center with i5P Personality Kit)	1/2023
523624	IntelliCenter® Lite System (Power Center with i5PS Personality Kit and two standard valve actuators)	1/2023
523625	IntelliCenter® Lite System (Power Center with i5PS Personality Kit and two IntelliValve® Actuators)	1/2023
523668	IntelliCenter® Lite System (Power Center with i5P Personality Kit) without High Power Wireless Link	3/2023
523669	IntelliCenter® Lite System (Power Center with i5PS Personality Kit) without High Power Wireless Link	3/2023

Why is the IntelliCenter Lite system more expensive than the EasyTouch Lite system?

The IntelliCenter Lite system provides significantly more functionality than the EasyTouch Lite system and is much easier to set up, configure and operate, saving valuable time. A brief feature comparison follows:

EASYTOUCH LITE	EASYTOUCH	INTELLICENTER
FOUR RELAYS (FILTER PUMP + THREE PIECES OF EQUIPMENT)	Up to eight relays	40 relays (up to three expansion enclosures)
ONE FILTER PUMP	Up to two IntelliFlo® pumps	16 IntelliFlo pumps

TWO FEATURE CIRCUITS	Up to eight feature circuits	32 feature circuits and 16 groups
FOUR SCHEDULES	Up to 12 schedules/programs	100 multifunction schedules/programs
TWO BODIES OF WATER	Two bodies of water	Two bodies of water (multiple bodies on product roadmap)

Additional IntelliCenter system features include a setup wizard to walk you through system setup and configuration, Over-the-air (OTA) software updates, and the capability to store and load commonly used system configurations.

What do I do if I have additional questions about IntelliCenter or IntelliCenter Lite?

If you have additional questions about the IntelliCenter or IntelliCenter Lite systems, please contact our sales team or Pentair customer service at 1-800-831-7133.
