

MICROBRITE[®]

COLOR AND WHITE LED LIGHT

Big on wow. Low on watts. Small in size.
Let your imagination take you to brighter places.

The brightest, most compact LED lights in the swimosphere.

Whether you're upgrading an older lighting system or building a new pool or spa, MicroBrite Color and White LED Lights give you the freedom to add dynamic, energy-efficient, uniform lighting in pool places you never thought possible.

Why MicroBrite:

Total pool lighting package. In a small package.

Exceptional brilliance, lighting uniformity, and amazing colors. From a light just 3.5 inches long.

Instant eye-pop in hard-to-light places.

Fits into narrow walls and tight spaces. In water as shallow as four inches.

Freedom and flexibility to design your dream experience.

Pools steps, sun shelves, swimouts, water features. It's a pool of new possibilities.

Versatile, easy upgrade for fiber-optic lighting.

A razzling, dazzling retrofit for pools with older pool lighting systems.

Save money and energy without sacrificing brilliance.

Enjoy pure LED efficiency from the industry's most compact 12V LED plastic light.

Easy, instant install. No niche required.

All you need for a stunning experience is a standard 1.5-inch pool wall fitting.

10X the life of incandescent light.

The only thing that will last longer are the pool memories you make.

For the full spectrum of nighttime pool possibilities, insist on Pentair. Learn more at Pentair.com

The MicroBrite Color and WhiteLED Light has earned the Eco Select® brand distinction as one of the greenest and most efficient choices from Pentair.

Because we are continuously improving our products and services, Pentair reserves the right to change specifications without prior notice. Appearance of color and white LED light may vary between various models of lights. Appearance and perception of pool lighting may vary depending on a number of factors including, but not limited to, the particular model of light, the location/depth/angle of the light's installation, pool finish/material, pool depth/shape/geometry, ambient light sources, subjective factors and more. For best results when using multiple lights, use all the same model and do not mix multiple models of lights within a single installation.
