MAGICSTREAM® LAMINAR

MagicStream Laminar

TRADEGRADE

Featured Highlights

- Microprocessor-controlled LED light source has the ability to synchronize with the IntelliBrite® 5G LED Pool Lighting for dynamic and synchronized colored light shows.
- Provides five brilliant fixed colors, seven dazzling light shows.
- Nighttime lighting effects include the ability to hold on a steady color or scroll through a range of available colors.
- Installation is made flush to your deck or other surface; no unsightly edges.
- Laminar deck lids are available in tan, black, and gray.
- The technical principal behind MagicStream Laminars is to reduce turbulence and air bubbles from the water before projecting it through a finely-machined nozzle. The laminar water flow is very non-turbulent, so it keeps its surface tension and flows through the air in a smooth, clean, unbroken stream, instead of spraying apart into droplets.
- Low voltage operation of 12 VAC/16W.
- Low flow requirements allow for multiple units per pool.
- The perfect complement to IntelliBrite 5G LED Pool Lighting and IntelliBrite® Architectural Series lighting for dynamic and synchronized colored light shows.

MagicStream Laminars with synchronization with IntelliBrite 5G LED color and white lights and IntelliBrite Architectural Series lighting create clear, uniform arcs of moving water that originate from either a pool deck or surrounding landscape. At night, these translucent streams are brilliantly colored, creating a water effect that adds elegant entertainment to your poolscape. It is fully compatible with the IntelliBrite® 5G line of LED pool lights, optional Color Sync™ Controller and IntelliCenter®, EasyTouch®, and IntelliTouch® Automation Systems. Control and customize light shows using the optional ColorSync Controller for Pentair Color LED Lights or the ScreenLogic2® Interface for IntelliTouch and EasyTouch Systems Control Systems, which can be controlled remotely using a mobile device.
