

SAND DOLLAR®

SAND DOLLAR®

SAND FILTER WITH CLEARPRO TECHNOLOGY®

Revolutionary technology redefines
sand filter performance.

While traditional sand filters can only remove particles in the 50–100 micron range, the Sand Dollar filter with ClearPro Technology removes particles five times smaller...well below what your eye can detect. That's the difference between a clean pool and one that truly sparkles.

The secret is a component inside the filter—a porous tube that water must pass through before re-entering your pool. It creates a final barrier to the small particles sand cannot stop, including the finest dust particles, algae and pollens. The result is a level of water clarity never before possible. In fact, Sand Dollar filters with ClearPro Technology achieve the same level of clarity as legendary diatomaceous earth (D.E.) filters.

SAND DOLLAR® SAND FILTER WITH CLEARPRO TECHNOLOGY®

Stunning performance and supreme simplicity

Pool filter operation doesn't come any easier. The Sand Dollar filter features a multi-port valve that puts all filter functions right at your fingertips—just rotate the handle to the desired position, and the Sand Dollar filter does the rest for sure and simple operation.

KEY FEATURES

Six-function, multi-port valve

For easier control of all filter functions such as filter, backwash, rinse, waste, closed and recirculate.

Combination water and sand drain

Makes servicing and winterizing faster and easier.

Special internal design

Keeps sand bed level for consistent performance and extended time between cleaning cycles.

Attractive Almond Color

Blends in with any outdoor decor.

One-piece thermoplastic tank

For exceptional strength, corrosion resistance and long life.

Model Number	Filter Area Sq. Ft.	Vertical Clearance*	Filter Diameter	Required Sand [†] (lbs.)	Flow Rate GPM**	Turnover Capacity (Gallons)		
						8 hrs.	10 hrs.	12 hrs.
SD 80 CP	3.5	74.0"	26"	350	75	36,000	45,000	54,000

[†] Use standard #20 silica sand

^{*} Required clearance to remove the valve

^{**} Maximum flow rate

The graphics at right illustrate, in a technically accurate way, the difference when ClearPro Technology is at work—far superior water clarity. The difference is particularly dramatic at night when pool lights can highlight particles in the water—not so when ClearPro Technology is on the job.
