ScreenLogic 2 Update

Steps For Updating ScreenLogic 2

Uninstall existing ScreenLogic Connect

Go to Website www.pentair.com – new software
A link has been provided on the Pentair Pool Page to allow for quick access to the ScreenLogic Update.

Sparkling-clean pool and spa water invites a healthy, active lifestyle. Pentair’s solutions are engineered to filter, clean and sanitize water to its purest state, while automation equipment makes it all easy to control from anywhere so that you can truly enjoy your pool and spa.
Download New Software

Start at Step 1:
Update your Protocol Adapter

Click on “Download the Protocol Adapter update tool” (PC or Mac)
Download New Software

STEP 1: UPDATE YOUR PROTOCOL ADAPTER

NOTE: There is no need to update your adapter if it already has the latest firmware version. The firmware version can be found on the label on the side of the product.

ScreenLogic is available for your iOS and Android devices. Please visit the Apple App Store or Google Play Store.

Download the Protocol Adapter update tool (available for PC and Mac).

PLEASE NOTE: THIS FIRMWARE IS NOT FOR COMMERCIAL INTELLICHEM. IF YOU UPDATE TO COMMERCIAL INTELLICHEM, IT WILL BREAK ITS ABILITY TO COMMUNICATE REMOTELY.

- For PCs: Click Here to start the download
- For Macs: Click Here to start the download

STEP 2: UPDATE YOUR INTERFACE(S)

ScreenLogic Connect interface software for PC and Mac.
Download New Software

When the file download window pops up, click on “Save”
Download New Software

Choose “Desktop”
Click on “Save”

ScreenLogic 2 Update

Steps For Updating ScreenLogic 2

Uninstall existing ScreenLogic Connect

Go to Website www.pentair.com – new software

Update Protocol Adapter
Update Protocol Adapter

VERY IMPORTANT:

Disable your computers wireless connection

Connect your laptop directly to the same router as your protocol adapter with an ethernet cable

You may need to ask the home owner to show you where the router is located (Multiple Routers?)
Download New Software

Locate the two files on your desktop
Double click on the Pentair Update file on your desktop. This file is used to update the Protocol Adapter.
Update Protocol Adapter

Click on “run” to start the update
Update Protocol Adapter

Highlight the local system by clicking on the Pentair: xx-xx-xx in the local Systems window

Click on “start”
Update Protocol Adapter

The system will start to update
Update Protocol Adapter

Wait until you see a message that says “System upgrade successful”. This may take a few minutes. Click “OK”
Update Protocol Adapter

If this window re-appears click on “cancel”
