Curve Envy

4" SUBMERSIBLE PUMPS

NOW UPSTAGED
FOR HIGHER PERFORMANCE

Don't Get Caught with Curve Envy.

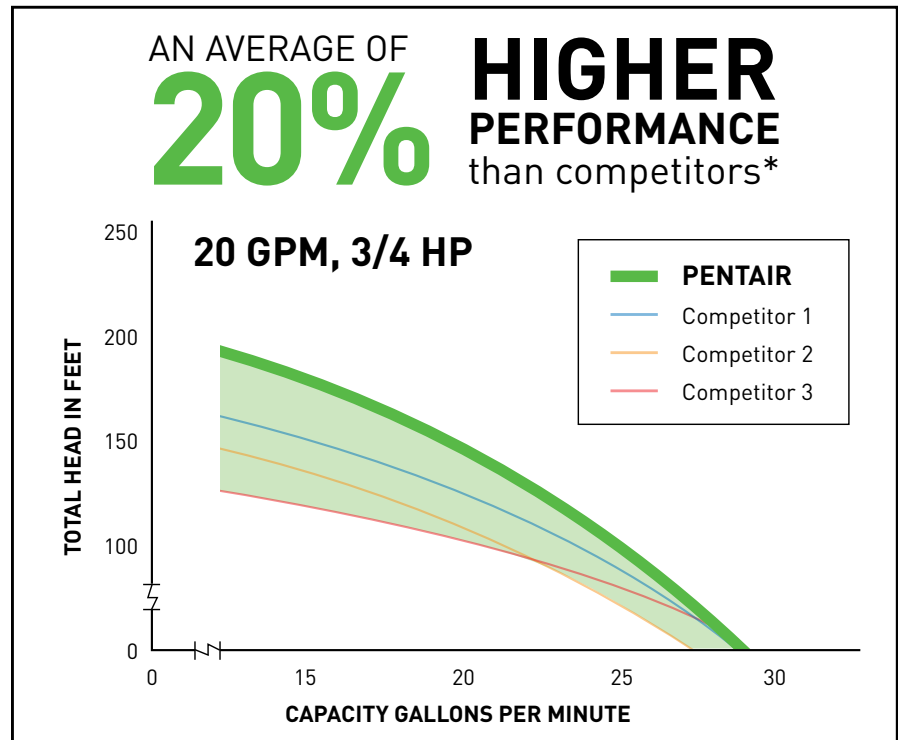

Install the Performance Leader in 4" Submersible Pumps.

Upgrade to the pump that delivers an average of 20% higher performance* when compared to competitive products.

Through the power of the Pentek® XE Series motor, we were able to add additional stages to achieve this increased performance.

Take a look at this curve analysis, proving that the upstaged 4" Submersible Pump from Pentair outperforms others.

*Average based on comparison to lowest-performing competitor's published performance curve data across the offering.

We've even developed a tool to show you how our pumps compare to the top competitors. Check it out at:

www.pumps.com/curveenvy.html

WHAT DOES THIS MEAN FOR YOU?

Beat the Competition

Our increased staging gives you an average of 20% higher performance than competitive pumps at like horsepower and rated flow.

The New Standard in Reliability

Experience the new standard with our redesigned JP series that includes a stronger discharge and added spring-loaded check valve.

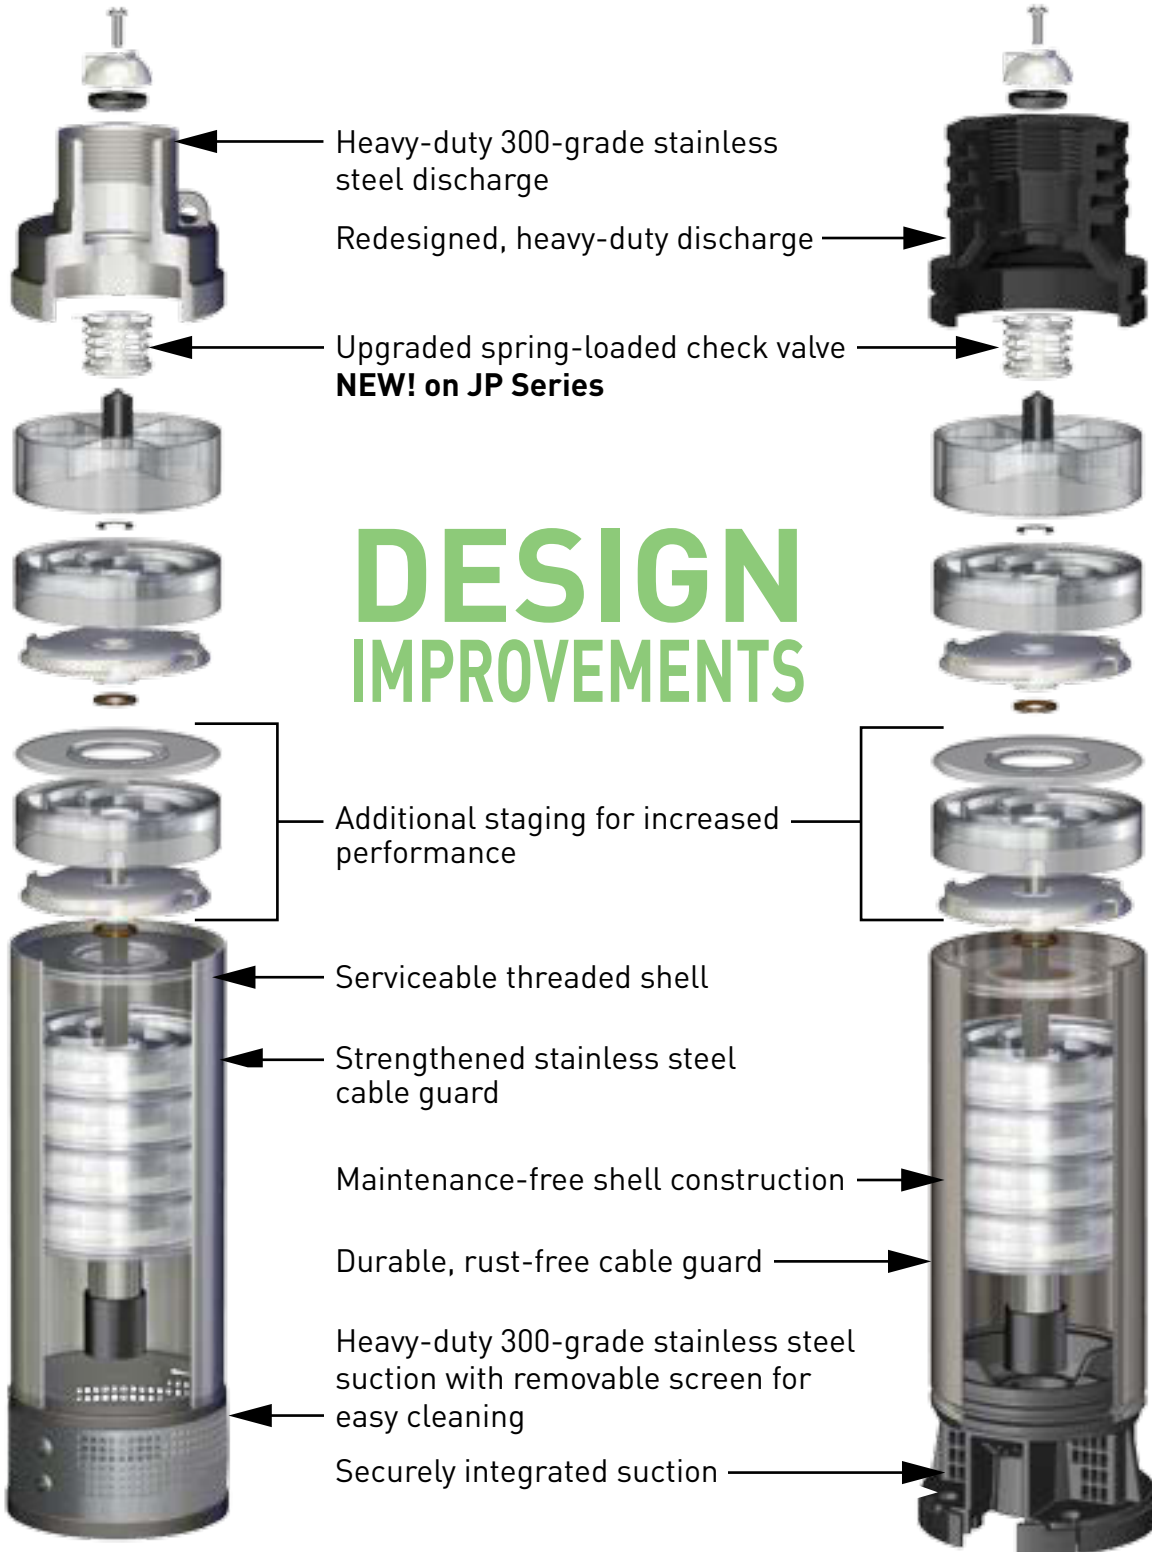

Better Performance

With increased staging across much of our 1/2-1 1/2HP pumps, you'll enjoy even greater performance receiving more depth and/or more flow than before with heads to 800 feet and flows up to 27 gallons.

The New Standard In Reliability.

HS/MS SERIES

JP SERIES

Already using a Pentair pump?

Now you'll have the ability to cover more applications with the same product.

UP TO **25%** HIGHER PERFORMANCE

Rated Flow (GPM)	Horsepower	Depth to Rated Flow	
		Before*	NOW*
7	1/2	80'	100'
7	3/4	100'	120'
10	1/2	150'	180'
10	3/4	200'	240'

*Approximate based on performance table at rated flow and 0 PSI.

With the increased staging we've added across our 1/2 through 1-1/2 HP line of submersible pumps, you'll enjoy even greater flexibility.
