A TASTEFUL ADDITION TO ANY HOME

## FloPlus<sup>®</sup> whole house high-flow chlorine reduction systems

American Plumber<sup>®</sup> introduces the WFP3/4 series of standard high-flow carbon block systems. Utilizing our patented Fibredyne<sup>®</sup> carbon technology, these systems offer extremely low pressure drop and maintain an efficiency for the best chlorine taste & odor reduction.

### features

- ★ Reduces particles as small as 0.5-micron in size by mechanical means
- ★ Maximum chlorine taste & odor reduction and excellent dirt-holding capacity
- ★ Radial flow filtration for longer filter life
- ★ Available with clear or opaque housings

### benefits

- ★ Reduces cysts such as *Cryptosporidium* and *Giardia* by mechanical means
- ★ Low pressure drop and high flow
- ★ Long cartridge life for reduced maintenance
- ★ Clear housing allows visual inspection of the filter working

### applications

- ★ Ideal for low water pressure situations
- ★ Whole house contaminant and chlorine reduction
- ★ Well and city water installations
- ★ Applications requiring clean, safe water

**WARNING:** Do not use with water that is microbiologically unsafe, or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts.

**CAUTION:** Filter must be protected against freezing, which may cause cracking of the filter and water leakage.

**NOTE:** Contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water.
