

382B SERIES

SINGLE STAGE VERTICAL IN-LINE PUMPS

MODEL 382B | Close-Coupled

MODEL 382B | Split-Coupled

**ICONIC
PERFORMANCE
FROM A TRUSTED
BRAND**

Pentair Aurora® 382B Series pumps are backed by over a century of commercial pumping innovation. Premium, easy-to-service design elements that meet modern compliance requirements deliver incredible performance in a compact, durable build that rises to the occasion in demanding environments.

382B SERIES Single Stage Vertical In-Line Pumps

Applications	Max Flow	Max Head	Max Temp	Stages	Suction	Coupling	Configurations	Certifications
Municipal/Industrial: • HVAC • Boosting • Clean water pumping	12,000 gpm (2,725 m ³ /hr)	370 ft (112 m)	275° F (135° C)	Single	Single Double	Close Split	Vertical	NSF372

FLEXIBLE

- Minimal hydraulic noise that meets or exceeds Hydraulic Institute® standards
- Back pullout casing includes in-line suction and discharge
- Patented jacking mechanism¹ for easy service

DURABLE

- Ductile iron casings boost working pressures
- Dynamically balanced stainless-steel impeller is enclosed and keyed to shaft extension for extra support
- Spire¹ supports rotating element from the bottom for stability during operation
- Single and double volute discharge minimizes side load on shaft
- Stainless steel shaft¹ helps reduce deflection
- Carbon mechanical seal built with durable 303 stainless steel metal parts and Buna-N® flexible elastomers

RELIABLE

- Smooth suction passage vortex breaker helps minimize pre-rotation
- Factory hydrostatic testing guarantees casting seal integrity
- Relief line improves venting and lubrication

¹Split-coupled only
