# **BERKELEY**° Mining Deepset Series 4" Submersible Pumps — 5, 10, 20, 30 and 50 GPM

Precision-engineered, highquality, rugged MGS Stainless Steel Series Pumps deliver efficient, dependable performance even in rough, aggressive water. Heads to 1,950 feet and capacities to 65 GPM. Built to deliver longterm, trouble-free service. Higher temperature engineered thermoplastic staging with floating impeller design resists sand and reduces sand locking. Pumps feature the proven SignaSeal staging system.

# **APPLICATIONS**

- Solution Mining
- Coal Bed Methane
- Uranium Mining

### **SPECIFICATIONS**

Shell - Stainless steel

Diameter - 3-7/8"

Discharge - Stainless steel

Discharge Bearing - Nylatron\*

Intermediate Bearing - Higher
temperature engineered thermoplastic, nitrile rubber and
stainless steel

Impellers - Acetal

**Diffusers –** Higher temperature engineered thermoplastic

**Suction Caps** – Higher temperature engineered thermoplastic with stainless steel insert

**Thrust Pads –** Proprietary spec. **Shaft and Coupling –** Stainless steel

Intake - Stainless steel
Intake Screen - Stainless steel
CableGuard - Stainless steel

### **FEATURES**

Proven Staging System – Our vhigher temperature engineered thermoplastic proven SignaSeal™ staging system incorporates a harder-than-sand ceramic wear surface that when incorporated with our floating impeller design, greatly reduces problems with abrasives, sand lock-up and running dry.

**Discharge –** Corrosion-resistant 300 grade stainless steel for durability in aggressive water. Large wrench flats for ease of installation.

**Discharge Bearing –** Exclusive self-lubricating Nylatron\* bearing resists wear from sand.

**Intake –** Corrosion-resistant 300 grade stainless steel for durability in aggressive water.

**Shaft –** Positive drive from "treated" 7/16" hexagonal heavyduty 300 grade stainless steel.

**Coupling –** Stainless steel press fit to pump shaft. Couples to all standard NEMA motors.

**Shell –** Highest grade, heavywalled corrosion-resistant stainless steel.

**Hardware –** All screws, washers and nuts are corrosion-resistant 300 grade stainless steel.

**Cable Guard –** Corrosion-resistant stainless steel guard protects motor leads. Tapered ends prevent pump from catching on well.

Intake Screen – Stainless steel. Pentek\* XE Motor – 2 and 3 wire NEMA standard all stainless construction water-filled motors.
