

NEW REPAIR KITS

**Supporting Split Case, End Suction, In-Line
Fire and Non-Fire Pumps**

Our three popular repair kits have the parts your pump needs to get back to full strength. These genuine OEM kits are made specifically for your Fairbanks Nijhuis pump.

AVOID COSTLY, UNPLANNED DOWNTIME

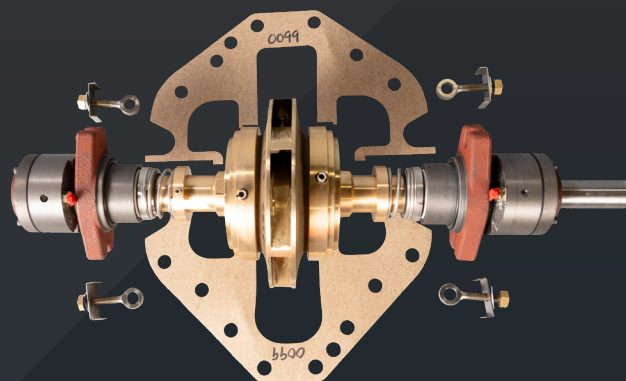

Our comprehensive repair kits include everything you need to repair or maintain your pump, ensuring you can avoid those unexpected and expensive downtimes.

BE PREPARED WITH SPARE PARTS

Save money by purchasing spare parts with your new pump. They'll ship together so you can keep spare parts on hand when you're ready to perform routine maintenance or if a repair needs to be made quickly.

MAINTAIN YOUR PUMP EFFICIENTLY

Our kits provide all the parts you need to maintain your pump, helping you avoid emergency downtimes and keep your operations running smoothly.
