FOR IMMEDIATE RELEASE

Pentair Hypro Unveils New Express™ Flushing Valve

NEW BRIGHTON, Minn. – September 12, 2018 – Pentair Hypro® introduces the new Express™ Flushing Valve. Designed to easily install into a new system or retrofit onto an existing boom, the new flushing valve minimizes the cumbersome task of boom cleanout after a long day of spraying.

Designed with operators in mind, the Hypro Express Flushing Valve saves time with easy installation and easy boom flushing. Boom flushing now takes less than half the time than the standard Hypro Express End Cap, while still including the same features such as a minimized dead end and air aspiration for quicker nozzle shutoff. Further, a tool is no longer needed to remove the clip and plug from the end cap to flush out the boom, it can be done with only a quick turn of the valve handle. To retrofit a current Hypro Express End Cap simply remove the plug and pin, place the valve in the plug socket and place the pin back.

To receive more information about the Pentair Hypro Express Flushing Valve, please call 1-800-424-9776 or visit pentair.com/hyprospraytips.

About Pentair

At Pentair, we believe the health of our world depends on reliable access to clean water. We deliver a comprehensive range of smart, sustainable water solutions to homes, business and industry around the world. Our industry leading and proven portfolio of solutions enables our customers to access clean, safe water, reduce water consumption, and recover and reuse it. Whether it's improving, moving or helping people enjoy water, we help manage the world's most precious resource.

With approximately 130 locations in 34 countries and 10,000 employees, we believe that the future of water depends on us. Our 2017 revenue was \$2.8 billion, and we trade under the ticker symbol PNR. To learn more, visit Pentair.com.

Since 1947, Pentair Hypro has helped farmers to feed the world through sustainable and eco-friendly spraying solutions. Our highly engineered products, technological expertise and exceptional customer support help our customers deliver sustainable, precision farming.
