

ELEVATOR PUMP CONTROL SYSTEM

EPC SERIES

The EPC-115 Series Elevator Pump Control System provides water detection pumping, monitoring, and alarm notification for oil/in applications where oil and hydrocarbons are prohibited from being released into the environment. The elevator pump control activates the pump for removal of water from elevator pits in accordance with ASME17.1. The control also shuts down the pump before discharging harmful substances.

APPLICATIONS

For use in garages, elevator sump pits, transformer vaults, and substations.
