

SCBC-10 SERIES CARBON BLOCK CARTRIDGE

The Pentair SCBC-10 Carbon Block Cartridges are treated to inhibit biofilm and microbial build-up in the filter that can decrease product life. The SCBC-10 Cartridge is highly effective at reducing unwanted taste & odor and chlorine taste & odor from potable drinking water.

This cartridge is protected by a pre-filter designed to significantly increase the useful life of the cartridges by trapping sediments that typically plug carbon block cartridges. It is the ideal choice for a wide range of residential, food service, commercial and industrial applications.

FEATURES/BENEFITS

Treated to inhibit biofilm and microbial build-up in the filter that can decrease product life

Enhanced dirt holding capacity

Premium, high-capacity bad taste & odor and chlorine taste & odor reduction

SPECIFICATIONS

Filter media:
Bonded PAC

Gaskets:
Santoprene

Endcap:
Polypropylene

Temperature Rating:
40-165°F (4.4-74°C)

Inner/Outer Wrap:
Polyolefin

Silver Content:
0.05% by weight

Netting:
Polyethylene

PERFORMANCE DATA

MODEL #	PART #	MAXIMUM DIMENSIONS	RATING (NOMINAL)	INITIAL ΔP (PSI) @ FLOW RATE (GPM)	CHLORINE TASTE & ODOR REDUCTION @ FLOW RATE
SCBC-10	155350-43	2.88" x 9.75" (73 mm x 248 mm)	0.5 micron	12 psi @ 1 gpm (0.83 bar @ 3.8 Lpm)	>20,000 gallons @ 1 gpm (75,708 L @ 3.8 Lpm)

NOTES: Performance capacity depends on system design, flow rate and certain other application conditions. Cartridges may contain a very small amount of carbon fines (very fine black powder). After installation, follow the instructions for flushing the cartridge to remove the fines before using the water. You should flush the tap at least 20 seconds prior to using water for drinking or cooking purposes. This is particularly important if the tap has not been used daily. Micron ratings based on 85% or greater removal of given particle size.

WARNING: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
